Continuation of Substance of Interview including description of the general nature of what was discussed: Examiner notified applicant that the specification [p. 1, line 5] includes an incomplete statement that refers to other pending patent applications with common assignees. The statement does not list any copending patent applications and it is unclear if there are any copending patent applications with common assignees that disclose related subject matter. Since the application has been allowed and issue fee has been paid, this issue can not be resolved by a formal examiner's amendment. Examiner notified applicant that he is responsible for a request to withdraw from issue if these issues are to be resolved.
